**Black Diamond Commercial Plumbing is a leading plumbing contractor to Australian builders who are committed to delivering high standards of service and workmanship, from estimating to handover.**

**Our highly developed and skilled team of plumbers, drainers and gas fitters specialise in all aspects of domestic, commercial, and industrial, medium to high density plumbing. Our dedicated team of qualified and experienced plumbers, estimators and project managers are committed to providing quality and safe all-round service, from start to finish.**

**Black Diamond Commercial Plumbing Contractors is fully licensed and all our hydraulic services are insured. All products provided comply with Australian Standards and are covered by warranty, to give our clients' and their projects security and guaranteed satisfaction.**

The Black Diamond journey began in 2017, founded by Managing Directors Joel Avery and Mark Stott who started in the commercial plumbing industry specialising in fit outs for commercial kitchens, schools, property development and industrial sheds.

Black Diamond Commercial Plumbing is a very experienced company with over 40 years of combined Commercial plumbing experience.

We are committed to developing our highly skilled and qualified team of plumbers, drainers & gas fitters.

Our capabilities now cover all aspects of plumbing & drainage.

## OUR SERVICES

Project Management	Temperature control valves and backflow prevention
Gas fitting services	Siphonic systems and design
Sanitary and stormwater drainage	Commercial estimating
Water mains and control valves	Elevated Drainage
Civil drainage	Passive Fire rating
Utility water and sewer services	Fire and domestic pump install
